DIAGNOSIS: AXIS I: _____ AXIS II: _____ AXIS III: _____

CURRENT MEDICATIONS: MED.	DOSE	ADDITIONAL SERVICES

PSYCHIATRIST: _____ THERAPIST: _____

- FINDINGS: B requesting - MDT - to see what is best placement
M states that feels B should be committed to DJC
- in detection for runaway, making pot, promiscuity, sleeping
w/ 3 y.o., stealing (in incarcerated for petty theft), not on probation
- judge has kept her in detection for her own protection - NOT enough
in DJC; in detection she scratched on her arm; B accusing
a male CD of sexually inappropriate TX toward her; focus on not
- inconsistent O.P. due to her avers. TX; P's deny they were ever contacted
by Vista Care for family SVCS

- RECOMMENDATIONS: (1) local AB eval + TX w/ P's & Both re: bonding
+ complete DIC from UC 7-02 (2) all plans in terms of LOC have been tried
- Family issues need to w/ some successes + its record at getting at
be addressed * the core of the problem; This area had not
been addressed; she will remain in detection
+ SVCS will start there - some will set up SVCS.
